Institute of Chemistry
Chemical Society of Republic of Moldova**

**The XVIIIth International Conference
“Physical Methods in Coordination and Supramolecular Chemistry”**

October, 2015, Chisinau, Republic of Moldova

The Organizing Committee is pleased to invite you to participate at the XVIIIth International Conference “Physical Methods in Coordination and Supramolecular Chemistry”. The conference will be organized in Chisinau, Republic of Moldova in October, 2015.

Scientific program

Original fundamental and applied works will be submitted. Only the communications containing novel unpublished and significant results will be accepted.

The Conference program will include Plenary Lectures, Oral communications and Poster Presentations.

The Conference will be focused on the following topics:

1. Study of coordination compounds in the solid state and in solution by EPR, NMR, Mössbauer, laser and X-ray photoelectron spectroscopy;
2. Diffraction methods in study of coordination and supramolecular compounds,
3. Relationship structure – property for the compounds with the library of useful properties (bioactive compounds, materials for molecular electronics);
4. Magnetochemistry and single-molecule magnets (SMMs).

The official Conference language will be **English**. No translation will be provided.

More information about deadlines for registration and abstract submission will be soon available on the web site of the Institute of Chemistry of ASM <http://chem.asm.md/>.
